Device Feature Matrix

This matrix shows the existence of the Java™ ME features on the actual products

This table shows the relationship between the devices (listed in the first column) and their features (labeled in the first row). NOTE: The highlighted features require signed MIDlets to run properly.

			Features		JSRs																														Motorola

JSR-139 Connected Limited Device Configuration (CLDC) 1.1
Some versions of MOTORAZR V3 handset support CLDC 1.0, but on the emulator only CLDC 1.1 is present.

JSR-179 Location
Supported by North American MOTO Q 9h models only.

Motorola Fun Lights V2
The SDK tool does not support the Region 6.
